Gibson Nichol

Computer Science Student & Software Developer

gibson.nichol@example.com | github.com/example/gibson-nichol-demo | linkedin.com/in/example-gibson-nichol

Computer Science student at the University of Central Missouri who enjoys building software that solves real problems, competing in hackathons, and exploring extended reality.

EDUCATION

University of Central Missouri - Computer Science, Software Development focus; Honors College

EXPERIENCE

Oracle - Contributed to pharmacy software work in a professional development environment.

Crosslists - Contributed to data pipeline work focused on moving and organizing information reliably.

SELECTED PROJECTS

- **MuleSuits:** Leading a mixed reality interface proposal for NASA SUITS using Unity, C#, HoloLens 2, and OpenXR.
- **Gate & Gatekeeper:** Explored a payment authorization firewall for AI agents with Python, FastAPI, and MCP; earned the Hack Midwest DevRev track prize.
- **HoloLens Object Identification:** Connecting HoloLens image capture to a FastAPI backend running YOLO object detection; exploring natural language voice queries.
- **Ledger Shredder, AgriVision, and Shadows of the Moon:** Flutter, XRPL, AWS Rekognition, MongoDB, and Unity projects across hackathons and independent development.

TECHNICAL SKILLS

Python, Java, C#, JavaScript, React, Unity, Flutter, FastAPI, SQL, Docker, Git, HoloLens 2, OpenXR, YOLO, AWS Rekognition, MongoDB, XRPL

LEADERSHIP

ACM Vice President; XR Organization Vice President; MuleSuits team lead; student event organizer
